

IMPULS AT TOKYO GAKUGEI UNIV. EXPLAYGROUND INSTITUTE

IMPULS ONLINE KYOUZAI KENKYUU SEMINAR FOR LESSON STUDY

Advanced Course for Teachers' Trainers

November 11, 2021 to February 11, 2022

12 days basic program plus supplemental program

Instructors;

Akihiko Takahashi, Ph.D. & Toshiakira Fujii, Ph.D.

ABOUT THE SEMINAR

IMPULS (International Math-teacher Professionalization Using Lesson Study) at Tokyo Gakugei University, Japan provide a unique learning experience to assist your team to seek effective implementation of Kyouzai Kenkyuu for Lesson Study. This intensive online program is designed for international mathematics educational practitioners to deepen their understanding of Kyouzai Kenkyuu through observing and discussing a recorded Japanese mathematics research lesson, which shows typical Japanese way of TTP (Teaching through Problem-solving). Participants as a team will also have chance to examine the mathematics curriculum in geometry for primary school, brush up their skill to anticipate students' response and discuss how to design Neriage phase.

Recommended for...

Teachers' trainers for both national and district level including curriculum officers or administrators.

Designed following contents.

During the 3 months program, each participant must complete course assignments asynchronously & synchronously engaged in local team activities that are required. Supplemental programs are optional to add on to the basic program to prepare and/or reflect demonstration lessons. Based on the request, supplemental online program will be specially designed and organized for each team in any days by February 11, 2022.

Basic Program *12 days to complete

- Day 1-5 ▷Watch TTP lesson videos and make transcripts *Individual activities
- Day 6 ▷How to lead teachers' reflection by using transcriptions and making summary report of research lesson
- Day 7-8 ▷Kyouzai kenkyuu for the demonstration lesson
- Day 9-12 ▷Complete the 1st draft of demonstration TTP lesson

Supplemental program 1
